After receiving an update from ORC management (Brian and Everett) last Wednesday on all aspects of their work on the RTC and DB supporting documents, they told us they would likely need four more weeks to complete their work, with NHPA PA implementation/documentation being the most uncertain on timing (next step: Valois and Mike have a call with the ACHP and NRC this week). Valois and I briefed Darcy on Friday who acknowledged that the 8/24/20 deadline would not be met. She/we will be contacting John Mays once the timing of final permit issuance becomes clearer. Darcy will also be talking with Lucita about the RTC to inform when we/she can begin WD review.
